Basic: HubSpot, Twilio, Postman, Snowflake
- **Analytical & Quantitative Skills.** Descriptive and inferential statistics (t-tests, binomial tests, correlation, regression), probability and hypothesis testing, data cleaning and preparation, EDA, data modeling, visualization design.
- **Professional Strengths:** Interpretation of analytical results, storytelling, problem-solving, stakeholder collaboration, client communication, process improvement, data-driven decision support, team leading.

EXPERIENCE

April 2024 - June 2025

SEEN | Oslo, Norway

Customer Success Manager (Data & Insights)

Managed a diverse portfolio of B2B clients, supporting data-driven video campaigns through analytics, automation, and performance reporting:

- Built and maintained Looker dashboards to track campaign KPIs and customer-success metrics, providing insights that guided business decisions and helped prioritize more profitable projects.
- Reviewed campaign results and A/B test data, identifying performance drivers and advising clients on improvements that led to higher engagement, attendance, and revenue while reducing churn.
- Managed API integrations and large client datasets for automated and one-off campaigns, reducing manual data-preparation time by about 40% and improving delivery speed and data accuracy.

August 2022 - March 2024

Xplora Technologies | Oslo, Norway

Head of Technical Support (Analytics & Strategy)

Led a 30+ person global team while driving analytics and cross-department insights to improve efficiency, service quality, and collaboration:

- Forecasted staffing needs during a major outsourcing transition, producing data-backed hiring models later proven accurate and cost-saving.
- Built Zendesk and Excel dashboards to track KPIs on resolution, satisfaction, and performance, improving response time and revealing product issues.
- Automated reporting across Zendesk and Jira, improving data visibility and saving hours of manual weekly work; dashboards remain in use.
- Acted as main contact for B2B telecom partners, leading presentations and trainings that strengthened collaboration and improved client operations.
- Launched Xplora's first intranet for onboarding and knowledge sharing (~50 users), improving training consistency and internal communication.

March 2019 - August 2022

Xplora Technologies | Oslo, Norway

Technical and Customer Success Manager (Data & Tools)

Promoted through multiple roles focused on analytics, automation, and process improvement within support departments:

- Built and analyzed the company's chatbot (Kindly), cutting ticket volume by ~30% and improving handling efficiency.
- Built Zendesk dashboards to track support KPIs and identify improvement areas, guiding hiring, training, and product updates.
- Designed and delivered onboarding for 10-15 new employees, developing training materials and self-service tools to strengthen team performance.
- Optimized the Help Center with marketing and tech teams, using customer data to improve usability and reduce requests.

2016 - 2019

City Council El Prat | Barcelona, Spain

Digital Content & Data Officer

Managed digital platforms and online publications for the city's cultural department, applying data insights to improve engagement:

- Analyzed website and campaign data to guide content strategy, increasing online traffic and participation in cultural events.
- Coordinated editorial workflows for monthly and seasonal publications, optimizing content and collaboration between departments.
- Designed and maintained website architecture and accessibility, ensuring clear navigation and usability across city platforms.

OTHER EXPERIENCE

Earlier roles in translation, editing, and teaching (2016-2019), strengthening attention to detail, communication, and adaptability across audiences.
